## DRAMA ACTIVITY-ACT LIKE AN ASTRONAUT AND RIDE A ROCKET SHIP TO LAND IN MOON.

### How to Act like an Astronaut

- Pretend to wear a space suit.
- Pretend to ride a rocket ship.
- Then ride the rocket and count backwards: 5,4,3,2,1.... BLASTOFF!
- Pretend that you are in outer space. What do you see. Do you see stars, planets, the moon and the sun?
- Now let's pretend to land the rocket ship on the moon.
- Now let's put on the pretend oxygen mask [Why an oxygen mask? Because there is no air on the moon and we have to breathe through an oxygen mask.]
- Let's pretend to come out of the rocket ship on the moon.
- Then we have to pretend jump on the moon (hop like a bunny). [Do you know why we are hopping on the moon? Gravity helps us stay on the ground. The moon has less gravity than earth so we leave the ground when we take a step on the moon.]
- Did you find any aliens on the moon ? If yes, pretend to take their picture with a camera.
- Now let's go back home to earth in your rocket ship.
- Talk about the pretend alien with your family.

## Planet Matching

Mercury 	Mercury	Jupiter 	Jupiter
Venus 	Venus	Saturn 	Saturn
Earth 	Earth	Uranus 	Uranus
Mars 	Mars	Neptune 	Neptune

Cut along the solid lines.

Two ways to play:

- Puzzle: Match the planet halves together.
- Memory: Flip all the pieces over and mix them up. Flip two pieces over at a time until you make a match.
